The Club Meeting.

There was a good attendance of ladies and gentlemen at the Club meeting, on Saturday evening last. The speech of Mr. Forrist, though brief, was pertinent and forcible-especially that portion in which he exposed the Pro-Slavery character of the Douglas doctrine of Popular Sovereignty. We regret that our Democratic friends were not present to hear it. The next regular meeting of the Club will be held on Saturday evening, July 7th.

GRAVEL AND STONE. By this we understand a collection of sand-lik substance having been lodged in the passage of the urine. When the system is in a healthy state, this substance is carried off by the natural passage of the body; but wien there is a weakness of any organ, especially the kidneys, they become incapable of expelling such sandy secretions, and con-sequently they are l-siged in the kidneys, urethro or binder, couring great inflammation to those organs, and great poins and swelling, and great difficulty in voiding urine. It has been admitted by many physicians, that Morse's Indian Root Pitis are made out of some particular plants that have a wonderful charming influence in dissolving the substance which has clogged the passage and by their cooling properties they expel all in-flammation, and leave the water passage in an active and hea/thy state. There is one condition of the female system in which the Pills cannot be taken without producing a PECULIAR RESULT. The condition referred to is PREGNANCY—the result, MISCARRIAGE. Such is the irresistible tendency of the medicine to restore the excual functions to a normal condition, that even the reproductive power of nature cannot resist it.

HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and civizens generally of the United States, because the article has attained a repu-tation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or biszoning puffery. The consumption of Hostetter's Stomach Bit-ters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare could never have been sold but for the rare medicinal properties contained in the prepara-tion, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its

are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid astimation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other billious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dysnessia and like are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter from the stomneh, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon

for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and reliwenshing generally. We have the eviand rejuvenating generally. We have the evi-dence of thousands of aged men and women who have experienced the benefit of using this who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. B. DENIUND Vegetable Healing BALSAM.

WHY WILL YOU NEGLECT a COLD and affect to despise it, as long as you are able to walk, until it has grown into a dangerto walk, until it has grown into a daugerous, and perhaps an incurable Cough—the foreranner of Consumption, or some other dangerous disease? It is through neglect or improper treatment of this common corp that such
yast numbers of the human race are destroyed,
Like a despised enemy, it is suffered to strengthen itself by delay, until it has reached and so
much affected the vital organs, as to place you
beyond the reach of man, and you fall an easy
prey to its power.

prey to its power.

There is a chap, safe—safe for the most tons der infant—and certain remedy for this dreadful enemy to mankind; that remedy is DENTON'S VEGETABLE HEALING BALSAM, which for several years was never known to full giving good satisfaction, and it leaves the pa-tient watt; he needs no medicine to purge this from the system.

This Medicine will cure and heal the Lungs, cure a Lame Back, Gravel and Kidney Complaints, Pains in the Side, Stomach or Breast, Agne in the Face, or Breast, Nervous Complaints, Paipliation of the Heart, Phthisic, Dysneys and Live Company of the Read of the Stomach

panis, Palpiation of the Heart, Philisic, Dyspepsis and Liver Complaints. It will cure Buras, Fresh Wounds, Chibblains, and Bruises upon man or beast, and take soreness out of any part of the body. This is not one of the new discoveries; H is

an old and established article, and there myriads of living evidences of its efficacy. Put up in bottles at only 25 cents each. Great Imposition and Fraud! Great Imposition and Fraud!

Its increasing demand and wonderful success has induced some three handred to imitate my "Vegetable Healing Balsam," which is always done to an invaluable medicine. Therefore the counterfeit is composed of only two articles, while the genuine is composed of eight different articles, and "all work together for good."
